

Estonia – one of the best education in Europe (study visit to Estonia)

Why a training session in Estonia? According to the last PISA results:

- The results of Estonian basic school students are the best in Europe and among the strongest in the entire world.
- Estonia has the least low performers – over twice as little compared with other countries'
- Estonia has very little educational stratification compared with other countries – our educational system is homogenous and egalitarian.

Our goal is to give you a deeper insight of the Estonian education system. With this benchmarking course

that will be fully tailored to your needs, we also give you a chance to discover, discuss, share knowledge,

exchange ideas and experience the Estonian schools by meeting and observing experts, teachers and pupils.

You will learn firsthand how the Estonian education system operates.

Main topics of this course (possible levels - pre-primary, primary, secondary, upper secondary education)

- Student in the center (support systems & the integration of special needs students)
- Teacher in the center (development and support)
- Leadership and management in schools, collaborative management
